

SMSC in MFL

Modern Foreign Language	We promote spiritual development by...	We promote moral development by...	We promote social development by...	We promote cultural development by...
	Pupils are taught to accept and embrace other languages and cultures through the teaching of MFL. Pupils are encouraged to be empathetic to cultures and beliefs of others and stereotypes challenged where necessary.	Stereotypes and intolerance are challenged through the teaching of language and culture.	Pupils are encouraged to work independently in lessons and proactively use the target language in classwork, whether through pair work, co-operative learning techniques or group work. Pupils are often differentiated in groups of varied abilities to encourage social interaction with others in the class with whom they may not usually interact. Pupils are encouraged to experiment with language and learn from mistakes without seeing them as a barrier to learning and embrace others that try but fail.	Pupils are encouraged to embrace 'difference' at all stages of their linguistic development and accept ideas which may be 'alien' to them, as culturally significant. Pupils are encouraged to discuss and challenge stereotypes within a national and international context.
